HOW TO GET THERE

BACKGROUND

Turner Construction/Skidmore, Owings, Merrill, LLP/Limbach is proud to be the Design Builder of this 240,893 gsf expansion of the National Defense University. This new building, Lincoln Hall has been designed to integrate into the fabric of this historic campus, and provide additional space to extend and expand the existing building's mission and functionality.

PROJECT FACTS

COST: \$76M PCD: Feb-07

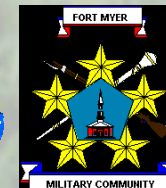

- Loc: Fort McNair in W-DC
- 240,893 total sq.feet of building
- 80,500 sq.feet conference center
- 6,800 square feet auditorium
- 10 educational centers
- 3-story building; 393 parking spaces
- Poured-in-place concrete
- Exterior: masonry & glass system
- Series of vegetated swales designed to pre-treat water run-off.

PROJECT GOALS

- Meeting the Army's Bronze Rating SPIRIT program.
- To place a fair proportion of its subcontract awards with small, HubZone, women-owned, veteran-owned business and DC-certified local, small, disadvantaged business enterprises.
